

WHAT IS CLAIMED IS:

1. A socket for use with a ratchet wrench comprising:

5 a socket body having a hollowed-out portion for receiving therein and surrounding the threaded cam bolt head of a standard camlock on a camlock coupling;

 a ratchet drive fitting for receiving the engagement head of a standard ratchet wrench and for driving said socket
10 with said standard ratchet wrench; and

 a plurality of tangs for engaging with cam turning slots of said standard camlock.

2. The socket of claim 1 further including:

15 A shoulder on said socket body for engaging with and depressing a ratchet lock pawl on said camlock.

3. The socket of claim 1 wherein said plurality of tangs is four.

20 4. The socket of claim 2 wherein said plurality of tangs is four.
